How to choose your Bio Music One albums?

To benefit fully from the beneficial effects of Bio Music One, it is best to use the full series of the 6 albums. However, to choose one album to start with, [please listen to the audio extracts of the different albums](#) and pay attention to your whole being while listening to the various titles. The albums that awaken in you physical, energetic, emotional, psychological and/or other sensations will correspond to the vibratory rebalancing you need in this period of your life. You are also welcome to consult our compiled table of distinctive and complementary features of the Bio Music One Albums.
